

ELAN™

Breath Alcohol Tester

Elan

ELAN™ Breath Alcohol Tester

ELAN allows you to test your breath alcohol concentration, or that of your friends, instantly. Simply blow on the sensor and your breath alcohol concentration is displayed within 10 seconds.

No Mouthpiece Required

ELAN uses a passive test system meaning it does not require a mouthpiece. The sensor is conveniently located at the top of the Elan for fast, repetitive breath sampling.

Discreet and Convenient

ELAN is perfect to keep in your pocket or handbag and it's smaller than many cigarette lighters. Use it in complete privacy or test your friends and colleagues at any social event.

Ready. Blow.

ELAN is ready right out of the box with everything you need to get started. Batteries are included allowing you to start testing right away.

Three Digit Display.

Using a liquid crystal display (LCD), Elan shows breath alcohol concentrations up to two decimal places.

Warranty

ACS breath alcohol testers are warranted to be free from defects in workmanship and material for one year from the date of purchase. It is recommended that only qualified technicians perform maintenance of any breath alcohol tester.

*All breath alcohol testing devices require periodic maintenance and calibration to ensure proper working order.

Specifications

| | |
|-----------------------------|--|
| Size: | 88 mm x 31 mm x 13 mm |
| Weight: | 105 grams |
| Sensor: | Semi-conductor |
| Specificity: | Selective to alcohol |
| Temperature Range: | 0°C to 40°C |
| Purge Cycle (Initial Test): | < 6 seconds |
| Breath Sample: | 5 second moderate and continuous breath sample |
| Analysis Time: | < 10 seconds |
| Recycle (Recovery) Time: | < 10 seconds |
| BAC Readout Format: | %BAC |
| Range of Measurement: | (0.00 to 0.35 %BAC) |
| Accuracy: | (± 0.01 @ 0.10 %BAC) |
| Display: | LCD |
| Last test recall: | No |
| Battery Pack: | 2 x AAA |
| Number of Tests: | 100 + with new batteries |
| Mouthpiece: | Not required |
| Complete Package: | 2 x AAA batteries, instruction card |
